Faraz Energy Pad
فرار انرژی پاد

BHT Electric-Control-Mechanic Company has more than 30 years' experience as a multi-service provider of manufacturing and engineering high-quality parts such as turbine components, electrical and control modules, analog and digital boards, as well as instrumentation devices for wind, solar & fossil power generations, petrochemicals, oil and gas, railway, cement, steel & paper industries worldwide.

At BHT, we focus on offering customers in 6 main categories:

- Electrical parts
- Control modules (Analog / Digital boards) and automation systems
- Mechanical spare parts and turbo-machinery components
- Couplings for drive systems
- Instrumentation products and equipment's (I&C)
- Raw materials for industries

In addition, we also provide procurement of spare parts and OEM products, machineries, international trading, as well as engineering and reverse-engineering. BHT is also known for its global punctual delivery and competitive prices.

Reverse-engineering and manufacturing services :

If your original supplier no longer exists or a product or part has been discontinued, we can help. It doesn't matter what product you need, we offer wide range of spare parts for turbines, from re-engineered electrical devices, control boards, and mechanical components, to any custom-designed parts to meet your exact configurations according to your "Sample" or "Drawing". Our quality control process ensures that all replacement supplied parts meet OEM specifications.

Products:

Instrumentation (Mechanical or Electrical), Circuit boards (Analog & Digital), Controlling systems, Data loggers, Valves, Pumps, Motors, Compressors, Spare parts for HP & LP Bypass valves & Actuators, Couplings & Gears, Hydraulic and Pneumatic components, Pipes & Wires, Metal sheets & raw materials, heat shields, Segments & Hot parts, locking blades, Bolts, Nuts & springs, Expansion screws, Retaining rings, Insulation Materials, Filters, Gaskets & Sealings, Refractory bricks and holders, Electrolyzes, Generally spare parts for Gas & steam Turbines.

1

Mechanical products and components

- Turbine Segments and heat shields, brick holders, Nozzles, Buckets, Rotor & Stator Blades and Vanes, Locking blades, Shroud blocks, Baskets, Supporting piece & all associated spare parts for Steam, Gas & Wind turbines.
- Burners, Combustion Chambers, Fixings, Refractory Bricks and holders, Transition pieces, Combustion Liners, Tubes and Baskets.
- Spare parts for HP, LP, Stop & Reheat bypass valves & Actuators, Inconel Bolts, Nuts & Springs, Discs, Pins, Expansion screws and coupling bolts.
- Spare parts for Generators, Non-Magnetic Retaining rings, Insulation parts & Materials.
- All kind of Couplings (gear couplings, tooth couplings, Hydraulic couplings, bending and flexible couplings, Flexible disc membrane coupling, clutches).
- Any kind of bearing & Housing (SKF, FAG, INA, NSK, FAFNIR, Luk, RHP, TIMKEN, etc.). Gear boxes, Speed accelerators and reducers, Journal & Trust Bearings.
- Valves, Actuators and Fittings (ball, shut-off, tapered plug, diaphragm, gate, safety, control, check, globe, butterfly, magnetic, Solenoid, Servo valves), flanges.
- Pumps, Compressors, Chillers and relative spare parts.
- Spare parts for Boilers/Heat Exchangers. Tubes & formed pipes, Seamless Tubes, Fin tubes, Basket elements for Air Preheaters , Metal Sheets, Coils, Wires, Plates and profiles (Super alloys).
- Spare parts for Wind turbines Type Vestas V47 (660KW)
- Expansion joints for Power industries.

2

Electrical & Control Products

- Circuit boards (Analog & Digital cards), DCS Modules, Spare boards for control & automation systems, 1~ 8 layers Printed Circuit Boards (PCB), Data acquisitions & Data-loggers, Monitoring & control systems, Retrofitting of old control systems type GE Speedtronic Mark I, Mark II , Siemens SIMATIC S5 & Siemens SICOMP M/R minicomputers.
- Spare parts for Siemens SIMATIC S5/S7, Siemens Iskamatic, Siemens Simadyn, Siemens Teleperm C/M/ME/XP, Siemens Simatic C1/C2, H&B Contronic, ABB Bailey Infi 90, BBC Procontrol P13 and Decontic systems, GE Speedtronic Speedtronic Mark I, Mark II, Mark III, Mark IV, Mark V, Mark VI, Mark VIe Control Cards.
- Power supplies, UPS, Transformers, Transducers, Actuators, Motors & Drives (AC/DC), Vibrating motor, Soft Starters, Frequency inverters, HMI, Industrial Monitors, TFT & LCD for recorders, Relays, Fuses, Contacts & Circuit Breakers.
- LV & HV Cables, Wires, Flexible connectors.

3

Instrumentation Products

- Thermocouples & thermometers (TC & RTD), Flame scanners & spark plugs, Differential pressure transmitters, Pressure switches and gauges, Temperature gauges, Level indicators, Analog & digital counters, Paperless recorders, transmitters.
- Sensors (Speed, Light, displacement, temperature, Weight, humidity, moisture, vibration, pressure, sound), Positioners, Gas probes, Gas & Water Analyzers, Gas Flow meters, Non-contact magnetic sensors (Customizable according to sample or drawing).
- Spare parts for fire-fighting and extinguish systems. Beam detectors, Gas, smoke, heat, fire detectors, Electric sounder, call points, Mini disc and control modules.
- Semi-Conductors, diodes, limit switches, Micro Switches, proximity switch, Coils, Timers, Amplifiers, Converters, burner lamps, Fans.
- Vibro-meter / Meggit Vibration Monitoring, Sensing systems and spare parts (TQ Sensors, Power supply units, Machinery protection cards MPC, Input/output/Relay Cards, Galvanic separations, Accelerometers, amplifiers, Proximity sensors, IQS conditioners etc.)

4

Other general and miscellaneous parts

- Mechanical Seals, Sealing rings, Oil Seals, Deflectors, Gaskets, Packing rings.
- Filter elements (PALL, HYDAC, MAHLE, PARKER, INTERNOMEN, ARGO, FILTREC, STAUFF, VICKERS, EPPENSTEINER, HY-PRO, TAISEI-KOGYO).
- Air Compressor Filter (Atlas Copco, Hankison, Ingersoll, Compair, Ultrafilter, Zander, Sullair).
- Oil and lubricants (Original SHELL oils-Made in Germany).
- Welding Electrodes, Chains & fasteners.
- Spare parts for Electrolyzers/Electrodialysis.
- Ceramic & Fireproof parts, Well blocks, Melting & Heating equipment, melting crucibles & pots, Gooseneck, Nozzle heater & head, injection coupling, plunger, tube & chamber furnaces, clamping systems, sleeves in all die casting process, polishing & die-casting machines (Hot & cold chamber).
- Solar panels & components, solar water heating systems.
- Raw materials for industries (Oils, Powders, Gypsum additives, Cement additives, Metylan special, Alloys, Sheets, Bars, etc.)

5

ORIGINAL Spare parts for Wind turbines

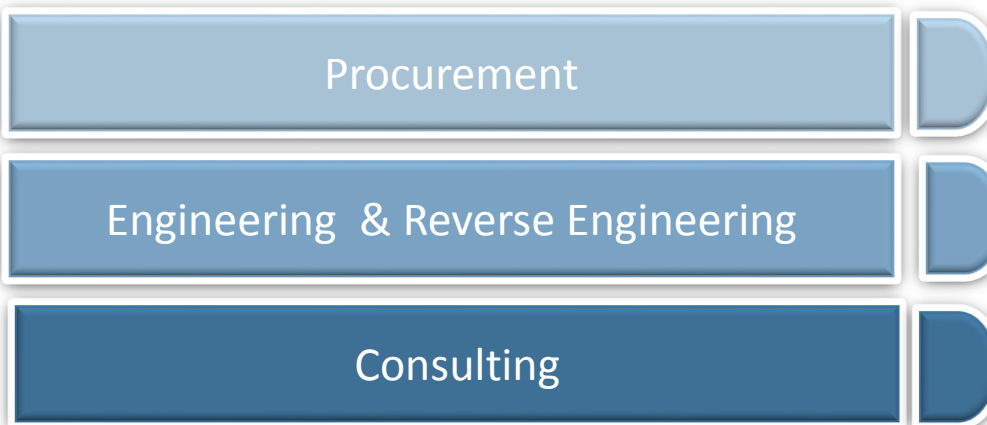

- All CT-Boards (CT3357, CT3409, CT277, CT 3503, CT3514, CT3251, CT 3133, CT3153, CT3364, CT 228, CT 218, CT 217, etc.), VRCC Control units, VRCC Power Electronics, Resistor, THERMOSTAT PROPORTIONAL PTS5, WATCHDOG, Gearboxes, Couplings, Motors, Anemometers, Proportional Valves, Hydraulic & Gear oil, Wind Vane, Surge arister, Hydraulic oil Filter, etc.

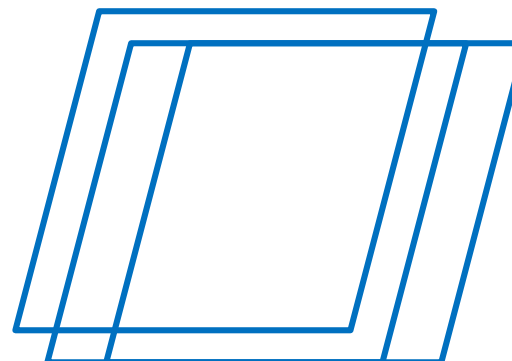

OUR SERVICE:

Based on our extensive, successful business activities worldwide and striving to be the most innovative company, now achieving your goals with our company is much easier process. Whether it's a simple idea to design and engineer a part or to support you in manufacturing a more elaborate and multidimensional project.

In addition, procurement of spare parts, machineries, import & export are as one of our routine services beside of engineering, reverse-engineering and manufacturing activities.
